COMPANY PROFILE

AGRICULTURAL EXPORTS | INTERNATIONAL TRADE | GLOBAL SOURCING

Connecting Nigerian Agricultural Resources to Global Markets

CORPORATE OVERVIEW

Verdant Global Resources Limited is a Nigerian company focused on agricultural commodity exports, international trade, and the supply of Nigerian agricultural products to international markets.

The company is committed to facilitating trade between Nigeria and the global business community by connecting local agricultural resources with international market demand. Through structured sourcing, buyer-focused service, quality-conscious product handling, and coordinated export operations, Verdant seeks to establish itself as a reliable partner in the international agricultural commodities market.

Our business approach is founded on integrity, commercial accountability, operational efficiency, and a commitment to understanding the specific requirements of our customers. We recognise that successful international trade depends on dependable supply arrangements, clearly defined product specifications, accurate documentation, transparent communication, and compliance with applicable regulations.

Verdant Global Resources Limited aims to develop sustainable commercial relationships with international importers, commodity traders, distributors, processors, and other strategic partners while contributing to the growth and international competitiveness of Nigeria's agricultural export sector.

CORPORATE VISION

To be the most trusted global partner for premium agricultural products, connecting the world's markets to the finest produce from Nigeria.

CORPORATE MISSION

To deliver Nigeria's finest agricultural produce to global markets with uncompromising quality, reliability, and integrity.

CORPORATE VALUES

Integrity and Ethical Conduct

We uphold honesty, transparency, accountability, and professional conduct in all our business relationships.

➤ Quality and Standards

We prioritize agreed product specifications, appropriate handling, suitable packaging, and compliance with applicable quality requirements.

➤ Reliability and Accountability

We are committed to fulfilling agreed commercial obligations and maintaining clear communication throughout the transaction process.

- Customer Focus

We seek to understand our customers' commercial objectives and develop solutions that support their sourcing and supply requirements.

- Regulatory Compliance

We recognize the importance of applicable export regulations, customs procedures, product standards, and destination-country import requirements.

- Sustainable Partnerships

We pursue mutually beneficial relationships that promote continuity of trade, business growth, and long-term commercial value.

- Excellence

We don't settle for ordinary. We continuously look for better ways to work and serve.

PRODUCTS AND COMMODITIES

Verdant Global Resources Limited focuses on the sourcing and supply of selected Nigerian agricultural commodities for international markets, subject to availability, market demand, and applicable regulatory requirements.

Our product portfolio includes:

- Cashew Nuts

Raw cashew nuts and other agreed grades for commercial processing and industrial applications.

- Sesame Seeds

Nigerian sesame seeds for food processing, commodity trading, and other approved applications.

- Dried Hibiscus Flowers

Dried hibiscus flowers for food, beverage, and other permitted commercial applications, subject to relevant quality and import requirements.

- Hardwood Charcoal

Nigerian hardwood charcoal for approved commercial and industrial applications, subject to applicable sourcing, environmental, and export requirements.

➤ Other Agricultural Commodities

Additional Nigerian agricultural products may be considered in response to verified buyer demand, sourcing capacity, and commercial feasibility.

Product specifications, grades, quantities, packaging, and delivery arrangements are established in accordance with individual buyer requirements and the terms of each transaction.

CORE BUSINESS ACTIVITIES

Verdant Global Resources Limited's principal business activities include the following:

➤ Agricultural Commodity Sourcing

Identification and coordination of suitable Nigerian suppliers and agricultural commodities based on buyer specifications, commercial requirements, and product availability.

➤ Export Supply Coordination

Coordination of procurement, product preparation, packaging, and shipment arrangements in accordance with agreed contractual terms.

➤ Quality and Specification Management

Coordination of product inspection, sampling, testing, and verification where required to support conformity with agreed specifications.

➤ Export Documentation and Regulatory Coordination

Coordination of relevant commercial documents, certificates, customs procedures, and regulatory requirements in collaboration with the appropriate authorities and service providers.

➤ International Trade and Buyer Relations

Development of commercial relationships with overseas buyers, importers, distributors, commodity traders, and processing companies.

➤ Logistics and Shipment Coordination

Engagement with freight forwarders, shipping lines, inspection providers, and other relevant service providers to facilitate export shipments.

QUALITY ASSURANCE AND COMPLIANCE

Verdant Global Resources Limited recognizes that quality assurance and regulatory compliance are fundamental to sustainable participation in international trade.

Our operational approach seeks to ensure that product requirements are clearly established before contractual commitments and shipment arrangements are finalized.

Depending on the commodity and destination market, our quality and compliance coordination may cover:

1. Product grading, sampling, and specification verification.
2. Moisture content, cleanliness, size, and other relevant quality parameters.
3. Appropriate packaging, storage, and transportation.
4. Product inspection and laboratory testing where required.
5. Applicable export permits, certificates, and regulatory documentation.
6. Destination-country import requirements and buyer-specific compliance conditions.

We seek to work with competent suppliers and relevant service providers to support conformity with agreed specifications and applicable regulations.

All certifications, inspections, and regulatory approvals are subject to the requirements of the particular product, transaction, and destination market.

INTERNATIONAL MARKET DEVELOPMENT

Verdant Global Resources Limited seeks to establish commercial relationships across selected international markets where Nigerian agricultural commodities offer viable sourcing opportunities.

Our target markets include:

- Middle East.
- Asia.
- Europe.
- North America.

Other Global Markets: Additional destinations based on market research, buyer demand, and regulatory feasibility.

Our market development strategy centres on identifying credible buyers, understanding destination-market requirements, offering commercially competitive supply arrangements, and building sustainable trade relationships.

OUR VALUE PROPOSITION

Verdant Global Resources Limited seeks to deliver value to international buyers through a structured and customer-focused approach to agricultural exports.

Access to Nigerian Agricultural Resources: We facilitate access to selected agricultural commodities available through Nigerian supply networks.

Buyer-Specific Supply Arrangements: We work to align sourcing, product specifications, quantities, and packaging with agreed buyer requirements.

Transparent Commercial Engagement: We prioritize clear quotations, defined contractual terms, and accurate transaction documentation.

Coordinated Export Operations: We work with relevant suppliers and service providers to coordinate product preparation, documentation, and shipment arrangements.

Professional Relationship Management: We maintain a business-focused approach to communication, order coordination, and customer support.

Long-Term Commercial Orientation: We seek to establish repeat business and lasting partnerships founded on performance, trust, and mutual commercial benefit.

EXPORT TRANSACTION PROCESS

Our export transaction framework is designed to support clarity, accountability, and coordination from initial enquiry to shipment.

Buyer Enquiry and Requirements Assessment: Receipt and review of the buyer's product, quantity, specifications, destination, packaging, and delivery requirements.

Sourcing and Availability Confirmation: Assessment of suitable supply options, product availability, and commercial feasibility.

Quotation and Commercial Negotiation: Preparation of quotations based on the agreed product specifications, pricing basis, applicable Incoterms, and payment conditions.

Contractual Documentation: Agreement on the relevant commercial terms and preparation of the necessary transaction documents.

Procurement and Product Preparation: Coordination of product sourcing, quality checks, packaging, and inspection where applicable.

Regulatory Processing and Shipment: Coordination of required documentation, regulatory procedures, freight arrangements, and shipment.

Post-Shipment Communication: Provision of available shipment documentation, tracking information, and relevant transaction updates in accordance with the agreed terms.

The precise procedure for each transaction depends on the commodity, destination market, contractual arrangements, and applicable regulatory requirements.

STRATEGIC PARTNERSHIPS

Verdant Global Resources Limited welcomes commercially viable partnerships with organizations and professionals operating within the agricultural and international trade value chain.

Our prospective partners include:

- International agricultural commodity importers and buyers.
- Food processors, manufacturers, and distributors.
- Wholesale traders and commodity trading companies.
- Nigerian farmers, agricultural aggregators, and commodity suppliers.
- Freight forwarders, shipping companies, and logistics providers.
- Inspection, testing, certification, and other relevant service providers.
- Strategic investors and commercial partners interested in agricultural trade.

We seek to develop partnerships that strengthen sourcing capability, improve operational efficiency, expand market access, and create sustainable commercial value.

CORPORATE COMMITMENT

Verdant Global Resources Limited is committed to developing a business distinguished by professionalism, integrity, reliability, and a clear understanding of international trade requirements.

We recognize that international buyers expect dependable communication, accurate information, transparent commercial terms, and careful coordination of product and shipment requirements.

Accordingly, we seek to build confidence through responsible business practices, clearly defined contractual obligations, appropriate documentation, and continuous improvement in our sourcing and export coordination processes.

Our long-term objective is to strengthen the position of Nigerian agricultural commodities in international markets while developing enduring relationships with buyers and business partners.
